Bike-sharing is a greener method of transportation and provides a user-friendly experience. However, it' s a combination of online and offline business. Operators are usually strong in online services, but lack offline business experience, which causes problems. Bike-sharing is an emerging sharing economy. As the government advocates the idea of low-carbon travel, bike-sharing has attracted more and more attention.

Bike-sharing solves the problem of the last mile in the journey. Green travel, low-carbon and environment-friendly. Bike travel saves energy, reduces pollution, and has a wholesome effect on health. Residents say they will be able to transfer to a small yellow bicycle when they get out of the metro station, which is both convenient and cheap, and they will no longer have to sit in unlicensed motorcycle taxis. However, as lack of management, the companies have been desperately trying to put vehicles on the ground, causing congestion in crowded places such as subway and bus stations. Leaving around leads to public disorder, and there will be no beauty in the city if the transport vehicles are so disorderly placed.

In general, bike-sharing not only provide great convenience to people, but also impose a certain burden on the society. Therefore, the society and enterprises

should make reasonable planning and layout of bike-sharing.

共享单车解决了骑行最后一英里的问题。绿色出行，低碳环保。骑自行车旅行可以节省能源，减少污染，对健康有有益的影响。居民们说，他们出了地铁站就可以换乘一辆黄色的小型自行车，既方便又便宜，而且他们也不用再坐无照的摩托出租车了。然而，由于缺乏管理，这些公司一直在拼命地将车辆停放在地面上，造成了地铁、公交车站等拥挤场所的拥堵。乱扔乱放会导致公共秩序混乱，交通工具乱放会使城市失去美感。

2.推迟退休年龄有利也有弊

3.我的看法

参考范文：

Along with the trend of longevity, nobody could have failed to notice a heated debate on whether it is wise to postpone retirement age.

Some people argue that it's necessary to postpone the retirement age in that it is a good way to deal with the aging population. One of the direct results of the aging society is a drop in the labor force supply, which can be relieved by postponing the retirement age. However, other people hold a negative view about it. For one thing, this reform could raise the pressure of social employment, especially for the present severe situation. For another, it may diminish the senior's leisure time

and the probability of the retired people enjoying their retirement pension.

For my part, we should take the level of the reform and the elders' interest into consideration so that a clearer perspective of the debate can be gained.

1.当今大学生需要通过各种资格认证考试,以获得相应的证书

2.出现这种现象的原因

3.我的观点参考范文:

In recent years, to get a certificate has become a new craze among college students. Just randomly, ask a student on campus what he or she is busy doing, quite possibly, you may get the answer that he or she is preparing for a certificate of some kind.

Why does this craze appear? There are two mainly reasons behind this phenomenon. First, it is the employments pressure that forces college students to

get more certificates. With the admission expansion of colleges, a large more graduates have to face the fierce competition in the job markets. How can one make himself more competitive, more certificates at hands maybe. Second, the diplomas and certificates are still important standard by which many employers measure a person's ability in order to increase qualification for a job, the students compel themselves to run from one exam to another.

From my point of view, we should be more rational when it comes to certificates, since certificates do not necessarily prove one's ability, being crazy in getting certificates blindly. It is nothing but wasting time. To conclude, we should focus on improving our ability but not getting a certificate of no practical value.

参考译文：

近年来，获得证书已经成为大学生中的一种新的热潮。随便问问校园里的学生，他或她在忙些什么，很有可能，你会得到他或她正在准备某种证书的答案。

为什么会出现这种热潮？这种现象背后主要有两个原因。首先，是就业压力迫使大学生获得更多的证书。随着高校招生规模的扩大，越来越多的毕业生不得不面对就业市场的激烈竞争。一个人怎样才能让自己更有竞争力，也许能拿到更多的证书。其次，文凭和证书仍然是许多雇主衡量一个人能力的重要标准。为了提高工作资格，学生们强迫自己从一种考试跑到另一种考试。

从我的角度来说，在证书的问题上，我们应该更加理性，因为证书不一定证明一个人的能力，盲目地获取证书是疯狂的。这只不过是浪费时间。总之，我们应该集中精力提高自己的能力，

但不要拿到没有实际价值的证书。

As a product of modern computer and the Internet, online games have become very popular among college students. A great many students have enjoyed great pleasure and satisfaction from these games. But as we see, some students lacking self-discipline are too much indulged in these games so that their health and academic performances are affected. This phenomenon has caused much worry from the teachers and parents.

However, some others argue that online games are not always harmful. They can train the ability of youngsters to respond to things quickly. Moreover, they can stimulate their imagination and their interest in computer science. More importantly, it does bring college students much pleasure and release their pressure greatly.

From my point of view, online games are a wonderful entertainment if you play them in a reasonable way. When they interfere too much with your study, it is better for you to give them up at once. Yet if you have enough self-control over them, you can certainly obtain real pleasure and benefit a lot from them.

然而，有些人认为网络游戏并不总是有害的。他们可以训练年轻人快速反应的能力。此外，他们可以激发他们的想象力和对计算机科学的兴趣。更重要的是，它给大学生带来了许多快乐，极大地释放了他们的压力。

在我看来，如果你以合理的方式玩网络游戏，它是一种很好的娱乐方式。当它们过多地干扰你的学习时，你最好马上放弃它们。然而，如果你有足够的自我控制，你当然可以获得真正的快乐，并从中受益很多。

Idol worshipping is not a new phenomenon , but the recent cases of unreasonable behaviors conducted by some young people have made it a focus of attention again. Especially, a young girl' s father has committed suicide just to wake up his daughter who is possessed by the idea of following her idol wherever he goes.
